

Posters – Original study (OS)

S.No	Poster Number	Title	Presenting Author with Conference reg .number
1.	OS1	Role of Anti-phospholipase A2 receptor antibody as a diagnostic marker for membranous nephropathy	Sonia Badwal ISRT 82
2.	OS 2	Clinicopathologic Spectrum of Nephrotic Syndrome from a Tertiary Care Centre in South India.	Biswajit Dey ISRT 119
3.	OS 3	Clinicopathological Profile of Childhood Idiopathic Nephrotic Syndrome	Garima Agarwal ISRT 18
4.	OS 4	C3 Glomerulopathy, an architectural mélange	Pavneet Kaur ISRT 159
5.	OS 5	Clinico-pathological spectrum of IgA dominant PIGN	Prasad Dange ISRT 118
6.	OS 6	Anti-glomerular basement membrane nephritis: A study of 134 cases	Mahesha Vankalakunti ISRT 11
7.	OS 7	Clinicopathological comparative study of C4d positive and C4d negative cases of IgA Nephropathy	Binu Mary Bose ISRT 71
8.	OS 8	IRGN REPLACING PIGN	Remya.R ISRT 150
9.	OS 9	Clinicopathological spectrum of pediatric lupus nephritis in Indian population.	K.C.Pani ISRT103
10.	OS 10	Patterns of injury in Lupus nephritis and their light microscopic and Immunofluorescence correlation- A four year study in a tertiary care hospital	Aarthi Mohanendran IRT 142
11.	OS 11	Clinicopathological Profile of Lupus Ne-	Sandeep

		phritis in Children-a Follow-Up Study.	Sreedharan ISRT 27
12.	OS 12	The clinical profile and outcome of patients with IgA Nephropathy	Sachin Sasi-dharan ISRT 20
13.	OS 13	Spectrum of Tubulo-interstitial Nephritis(TIN) on Renal Biopsy from a Tertiary care Centre	Prathipa R ISRT 147
14.	OS 14	Granulomatous Interstitial Nephritis	Radha Sagar ISRT 37
15.	OS 15	Renal Hemosiderosis in Contrast Induced Acute Kidney Injury	Chandrasekhar ISRT 157
16.	OS 16	Role of macrophages subtyping and mast cells in fibrogenesis in IgG4 related tubulointerstitial disease	Suvradeep Mi-tra ISRT 141
17.	OS 17	Acute pyelonephritis as an unusual cause of acute kidney injury.	Swapna K.D ISRT 72
18	OS 18	Thrombotic Microangiopathy-A Two Year study	Anne James ISRT 95
19.	OS 19	Purview of post transplant renal diseases in a tertiary care center-a 2 year study	Mohan Krishna Pasam ISRT 155
20.	OS 20	Glomerular inflammation in allograft renal biopsies: pattern of recruitment of CD3 and CD68 positive cells in rejection episodes	Neha Agarwal ISRT 54
21.	OS 21	Preimplantation histologic evaluation of donor kidneys - A valuable tool in allocation of deceased marginal donor kidneys.	Renu Paul ISRT 9
22	OS 22	Thrombotic microangiopathy in renal allograft biopsies – its incidence, etiology and role of histological parameters in assessment of graft outcome	Anushakumari ISRT 48

23	OS 23	Observations on IgA nephropathy in Renal Transplant Biopsies	Chitra Madiwale ISRT 116
24	OS 24	Adjuvant Stem Cell Therapy with living donor Renal Transplantation offers better outcome in Lupus Nephritis with chronic renal failures as compared to conventional Transplantation.	Lovelesh ISRT120
25	OS 25	A study of Graft Histopathology in Patients with graft dysfunction after live related renal transplantation	Karthik Ganesh ISRT 23
26	OS 26	Immunopathological investigation in female Wistar rats with experimentally induced catheter associated urinary tract infection (CAUTI)	Prasanth R ISRT 107
27	OS 27	Histopathological Spectrum and Clinical Correlation of Non-Diabetic Renal Disease in patients with type 2 Diabetes Mellitus	Mary Mathew ISRT 136
28	OS 28	Podocyte and endothelial cross-talk in presence of collapse	Jashan Sandhu ISRT 135
29	OS 29	Role of C4d immunostaining in subclassification of membranoproliferative glomerulonephritis	Immanuel Praadeep ISRT 154
30	OS 30	Phospholipase A2 Receptor (PLA2R) Detection and IgG Subtyping On Fresh Frozen Tissue Versus Paraffin Embedded Renal Biopsies In Membranous Glomerulonephritis	Ashwani Kumar ISRT122
31	OS 31	Acute renal Allograft dysfunction- clinicopathological correlation a study of 145 cases	Punnoose Thomas ISRT 96
